

THE YAC DISPATCH

Week of November 5th - November 18th

Need to Know

YAC November Workshop

Our November workshop is coming up fast!

Please join us:

Tuesday, November 20th from 4:30-6:00PM

at the ITE Urban Field Station

Be prepared to have fun, eat good food and learn about

Marine Studies in the Gulf of California!

with friends!

Wilderness Warriors Internship

We've got a great group of YAC members participating in our Wilderness Warriors Internship!: Madison Birchard, Miguel Ceballos, David Cervantes, Jacob Cooper, David Dearmore, Isolde Edminster-Genet, Terra Gomez, Diego Gray, and Isaiah Haley! Interns will meet land managers, scientists, policy experts and public land stakeholders and then turn experience into action by developing youth-driven media announcements that advocates for wilderness!

What are YAC members listening to?

From Terra Gomez:

A NEW CLIMATE TIPPING POINT

I listened to a podcast the other day about climate change and how a 2% increase in temperature could change a lot in the world.

"The worst consequences of global warming will occur even sooner than what we thought."

It is predicted that earth will reach 2°C by the year 2030. In 2015 world leaders got together in Paris and forged the Paris climate agreement. The agreement stated that every country on earth would make changes to take actions to stop climate change. After reaching 2°C or 3.6°F Bangkok could be under water. A scientist named William Northouse won an award for stating that CO2 waste should be taxed.

Favorite Experience with YAC/ITE?

So far my favorite ITE memory was when I did the anza interpretive design internship. I loved working with different people and learning new things about other peoples history and culture. I also thought it was a great opportunity to work with students from ASDB to create the interpretive pathway down the anza trail.

One cool thing people may not know about you?

One thing that people may not know about me is that I have and ride a unicycle. I begged for it 4 Christmases ago and ever since I taught myself how to ride it and try to ride it as much as I can.
